Stainless steel 304 inside and outside

304 stainless steel is the ideal choice for high-quality bottles and tumblers as it is characterised by its durability and corrosion resistance. Used both inside and out, 304 stainless steel offers optimum protection against rust and discolouration - ideal for storing hot and cold drinks.

Another advantage is its outstanding durability. 304 stainless steel is extremely robust and resists knocks and scratches, ensuring long-term use and an attractive appearance. It is also particularly easy to clean and dishwasher safe.

Copper-vacuum insulation

Copper vacuum insulation is an extremely efficient technology for keeping drinks hot or cold for a long time. The combination of double-walled insulation and an inner copper layer minimises thermal conductivity, resulting in exceptional temperature retention times.

Another advantage is the reflectivity of the copper layer, which keeps the temperature inside and reduces heat loss, making bottles and cups particularly efficient and durable.

Ceramic coating inside

The ceramic coating offers numerous advantages for bottles and tumblers. It is tasteless, so drinks retain their natural flavour, and scratch-resistant, which ensures a long service life. It is also easy to clean and prevents the build-up of residues or odours.

Powder coating

The powder coating ensures a scratch-resistant and durable surface that is particularly resistant to wear and impact. It also gives the products a non-slip texture that ensures a secure grip.

360° UV printing

360-degree UV printing offers a unique opportunity to print bottles, cups and other cylindrical products in high quality all round. This innovative technology can be used to create continuous, seamless designs that surround the entire product and attract maximum attention. Whether detailed graphics or vibrant colours - UV printing ensures razor-sharp and long-lasting print results.

myNizza

The NIZZA collection has been specifically expanded to meet the different requirements of modern users. In addition to the three tried-and-tested NIZZA bottles in various sizes, the collection now includes two new NIZZA II bottles with a straight, modern design characterised by simple elegance and functionality.

A thermo mug, an office mug with handle and a practical lunch pot have also been added to the range. The thermo mug and the office mug pick up on the established design of the NIZZA bottles and fit seamlessly into the overall look of the collection. The Lunchpot complements the range with an ideal solution for taking food with you - perfect for use in the office, when travelling or during leisure time.

With this expansion, the NIZZA collection not only offers a wider range of products, but also a uniform appearance characterised by clear shapes and functional details. All products are perfectly harmonised and are ideal for everyday use and as high-quality advertising media for companies.

The NIZZA collection stands for modern design, sophisticated functionality and versatility. Discover the possibilities that this range offers to meet the needs of your customers.

mySteelOne

The thermo mugs and thermo drinking bottles from RETUMBLER- mySteelOne are not only aesthetically pleasing, but also technologically advanced and it is for these very reasons that we have included them in our range. Here are some of the most important reasons:

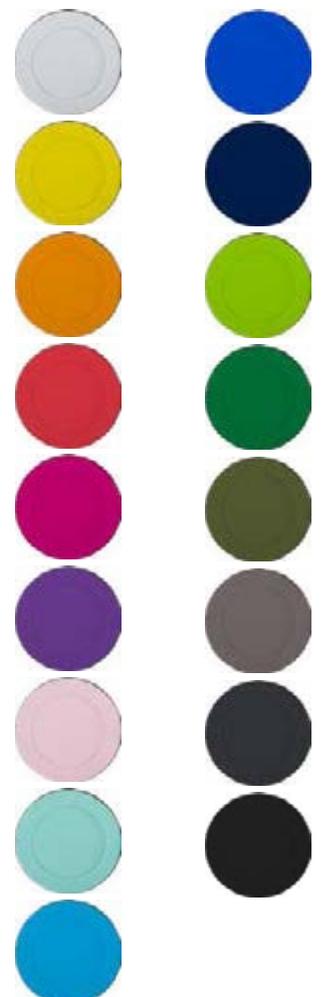

High-class technology: vacuum copper insulation guarantees excellent temperature maintenance - 9 hours for hot drinks and an impressive 32 hours for cold drinks. This ensures that your drink always stays at the desired temperature.

User-friendliness: The 360° lid is not only a clever design element, but also extremely practical. It allows the user to drink from any angle and the deep seal optimises the insulating performance.

Functionality & safety: An anti-slip soft bottom ensures that the mug stands stable, even on slippery surfaces. This minimises the risk of spills and accidents.

Versatility: The thermal drinking bottle is also suitable for carbonated drinks, which makes it an ideal companion for a variety of drinks.

Durability & easy care: The high-class powder coating not only gives the cup and bottle a classy finish, but also provides additional protection. And since both items are dishwasher safe, cleaning them is child's play.

Thermobecher 52566 RETUMBLER-mySTEELONE
Thermoflasche 52562 RETUMBLER-mySTEELONE

myDringeo

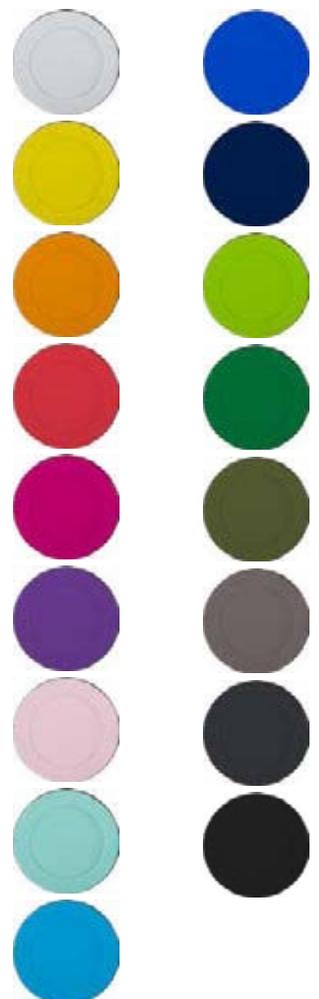

In an ever-changing world where quality and design go hand in hand, we are delighted to have the RETUMBLER-myDringeo thermal mug and 500ml and 750ml capacity thermal bottles in our range. Here are the reasons why these products are a top choice for our customers:

High-class materials: made of stainless steel, these products not only stand for durability and reliability, but also for timeless elegance. Stainless steel is rust-free, neutral and offers the perfect protection for your drink.

Versatile functionality: Whether you want to keep your coffee hot or your water cool during a busy summer day, these products guarantee hours of temperature maintenance. Whether you are on the go with the thermo mug or take our thermo bottles for extended trips or work days, you always have the right product at hand.

Sizes for every need: With the thermo mug and the two thermo bottle sizes of 500 ml and 750 ml, we cover a wide range of customer needs. Whether you need just a small sip or a larger quantity for the whole day, we have the right product for you.

Stylish design: The noble design in stainless steel look makes every product in this series an eye-catcher. They are not only functional, but also fashionable accessories that fit any lifestyle.

The myNizza family is growing: The RETUMBLER-Nizza thermo mug holds 350 ml and impresses with its modern design. Thanks to the ceramic inner coating, you can enjoy your favorite beverages without any alteration in taste. The ceramic also offers an attractive look and is very easy to clean. As a special feature, you can order the transparent, BPA-free push-on lid and choose the closure slider from 17 different colours.

While the models in red, white and dark blue have a white inner coating, the black mug also has a black interior. Made from recycled stainless steel, the double-walled thermo mug is both robust and durable. The insulation keeps your drinks warm for up to 4 hours or cold for up to 24 hours. The outer powder coating ensures an appealing look and a pleasant feel. A BPA-free, leak-resistant push-on lid made from recycled PP and AS plastic is optionally available.

myVivero: the concept on stock

52570 RETUMBLER-myVIVERO

Thermo mug

Onze eigen innovatieve ontwikkeling herdefinieert het principe van de herbruikbare beker voor promotionele boodschappen. De beker van 350 ml bestaat uit drie componenten: de binnenbeker is gemaakt van hoogwaardig roestvrij staal, waarop een wit of zwart deksel met een uniek groot drukoppervlak kan worden geplaatst. Om het concept compleet te maken, kunt u voor de buitenbeker uit twaalf kleuren kiezen - tien transparante en twee effen bekerkleuren.

De buitenbeker kan zo nodig als extra drinkbeker worden gebruikt. De transparante buitenbeker is nog een hoogtepunt van de myVivero, omdat de binnenbeker erin lijkt te zweven. Een reclameboodschap op de buitenbeker geeft het product een nieuwe visuele dimensie.

Material recycled stainless steel, recycled polypropylene silicone

Measurements 148 x 88 x 68 mm **Weight** 242 g

Packaging Polybag

gift box optional

MyVivero has been developed with a tapered design. Its clever shape allows a secure grip at all times – be it in the gym or while dancing at a festival.

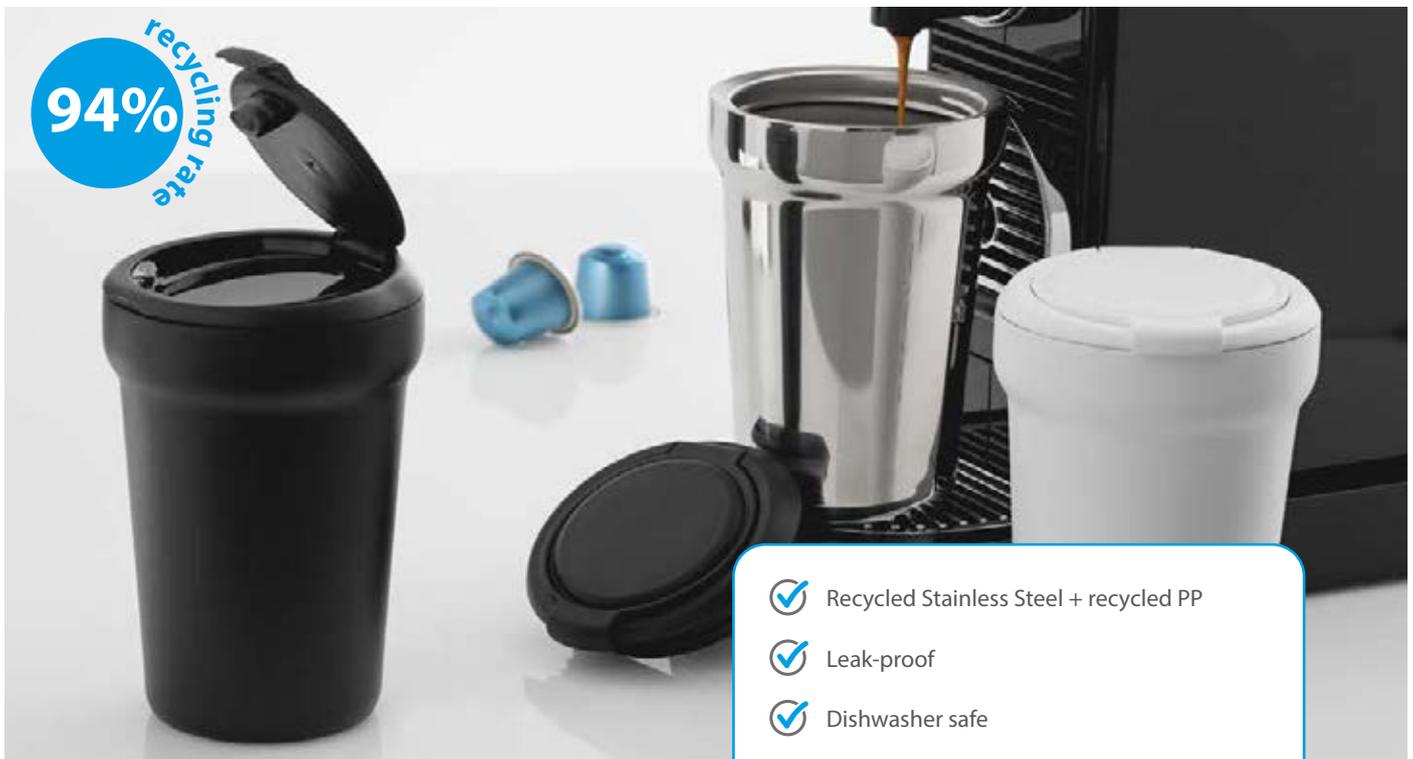

The large printable lid made from PP plastic is smoothly adjustable and can be opened wide.

Our favourite cup myVivero is a real talent. The entire cup fits under even the small coffee machines.

52595 RETUMBLER-VIVERO STEEL

Thermo mug

With RETUMBLER-VIVERO STEEL, a REFLECTS® in-house design, you present a thermo mug with a large filling capacity of 350 ml and outstanding functionality to your customers. The mug – made of recycled stainless steel – is available in three versions: black or white powder coating or silver mirror finish. The powder coating gives the thermo mug a modern, matt look and good scratch resistance. The special mirror finish through high gloss polishing forges an absolutely striking look of the mug. The lid is made of BPA-free plastic and is available in either black or white.

The double-walled design and the copper vacuum insulation ensure the excellent insulation performance of the mug. The leak-proof mug keeps drinks warm for 6 hours and cold for 24 hours. Tip: All three variants are dishwasher safe.

52594 RETUMBLER-COLESSO

Thermo mug

The double-walled thermo mug RETUMBLER-COLESSO is characterised by its large filling capacity of 400ml, excellent insulating performance and attractive design. The thermo mug is an in-house design and is available in black and white. The transparent lid and the elegantly curved shape of the mug form an impressive appearance. The powder coating provides a pleasant feel and protects the surface of the mug from scratches and fingerprints. The lid was made of BPA-free plastic and is therefore harmless to health. The screw cap and the silicone seal on the lid ensure that the thermo mug is leak-proof. Thanks to the double-walled design and the high-quality copper vacuum insulation, the mug keeps drinks hot for 5 hours and cold for 8-10 hours. It can be easily and thoroughly cleaned in the dishwasher.

52566 RETUMBLER-STEELONE

Thermo mug

The double-walled thermo mug with copper vacuum insulation is available in three different glossy varnish colours and two powder coatings. As an attractive, high-class thermo mug, it matches the SteelOne thermo bottle. Both products are a protected REFLECTS own design.

The 360° lid allows comfortable drinking without a fixed drinking opening. The cup can be opened and closed by light pressure on the stainless steel surface of the lid. The BPA-free thermo mug has a filling volume of 400 ml and keeps drinks warm for up to 9 hours thanks to the deep seal between the lid and the mug. Cleaning in the dishwasher is possible with the varnished mug, but we recommend cleaning by hand. The rubberised interchangeable base and the silicone ring on the lid are in the same colour as the bottle.

52573 RETUMBLER-DRINQEO Thermo mug

It's the timeless and classic design that distinguishes the RETUMBLER-myDRINQEO thermo mug from others. The stainless steel mug with anti-fingerprint finish features a practical 360° lid and can be customised with a coloured ring. In addition, the soft base can be chosen from 17 different colours. All configurable components of the Drinqeo family are available from stock in Cologne. The completely BPA-free mug is double-walled with vacuum copper insulation and has a capacity of 350 ml. Due to a small technical feature integrated into the lid, the thermo mug has a very good insulation performance: it keeps warm for eight hours and cold for 24 hours. The 360° lid can be opened/closed with one hand and allows comfortable drinking without a fixed drinking opening. The soft base ensures a secure stand on all surfaces.

52652 RETUMBLER- GRAND CANYON Thermo mug

Discover the RETUMBLER-Grand Canyon thermo mug! With an impressive capacity of 1200 ml, it is the ideal companion for long periods of thirst. The powder-coated thermo mug is made from recycled stainless steel, recycled AS and PP plastics. Thanks to the double-walled copper vacuum insulation, the drink stays cold for up to 32 hours or hot for up to 9 hours. The mug is particularly suitable for summer refreshments. Prefer it ice-cold? Thanks to the generous opening, ice cubes can be easily added, which stay frozen for up to 48 hours due to the excellent insulation of the mug.

The leak-proof, multifunctional plug lid has both a closable straw opening and a flip-lid opening. This allows you to conveniently use the mug not only at home or in the office, but also on the go. Tip: The included Tritan straw has a useful stopper at the bottom to prevent slipping out. This way, the straw stays securely in place even with carbonated drinks. RETUMBLER-Grand Canyon provides a prominent logo area on the mug body. Advertising can be done via pad printing, UV printing or laser engraving. All components of this mug can be safely cleaned in the dishwasher.

52645 RETUMBLER-PORTMORE

Thermo mug

This thermo mug impresses with its familiar resemblance to our popular thermo mug RETUMBLER-Kingston. The new 400 ml mug not only inherits strong features, but also distinguishes itself with unique characteristics. A special feature of it is the BPA-free flip lid, which stands out for its easy operation. RETUMBLER-Portmore is made of stainless steel, recycled AS and polypropylene plastic and is available in 4 versions: powder-coated black, white, gray or stainless steel with an anti-fingerprint coating. The black and stainless steel variants are equipped with a black silicone sleeve and a black transparent flip lid. The light gray and white mug models have a dark gray silicone sleeve and a clear flip lid. The double-wall with copper vacuum insulation ensures impressive insulation performance. While warm drinks remain pleasantly warm for up to 5 hours, cold drinks stay refreshing for up to 24 hours. This leak-proof drinking mug allows you to enjoy genuine drinking pleasure anytime, anywhere. A rubberized soft bottom ensures slip resistance and protects surfaces from scratches. All components of the insulated mug are dishwasher safe. The rubber bottom can be removed for cleaning.

52446 RETUMBLER-THIONVILLE

Thermo mug

The design of this double-walled vacuum insulated mug is inspired by classic coffee-to-go cups. As well as being pleasant to the touch, the powder-coated exterior offers increased scratch and impact resistance. The mug has a snap closure lid. Its 380 ml fill capacity makes it ideal for that first large coffee of the day.

52605 RETUMBLER-ORTADO OFFICE

Thermo mug

An elegant, finely powder-coated thermo mug complete with a handle and sliding lid - the RETUMBLER-ORTADO-Office is the quintessential office mug from our ORTADO range. The body is made from recycled stainless steel, while the lid combines recycled polypropylene and AS plastic. The 360 ml mug features a transparent, BPA-free lid with a silicone seal. Its sliding mechanism ensures effortless opening and gentle closing. The genuine beechwood handle is sturdy, adding a pleasing colour contrast to the mug.

Owing to its double-walled vacuum insulation, the office mug keeps hot drinks warm for up to 4 hours and cold drinks chilled for up to 24 hours. Tip: Given its wooden handle, we recommend hand-washing the thermal mug.

52606 RETUMBLER-ORTADO TO GO

Thermo mug

This 360 ml thermo mug with a flip-lid is the perfect companion for on-the-go and in the car. The body is crafted from recycled stainless steel, whilst the lid is made from recycled polypropylene and AS plastic. The twist-lock feature, coupled with a silicone seal on the lid, ensures the mug is leak-proof. Due to its double-wall construction and premium vacuum insulation, the ORTADO-To-Go mug keeps beverages warm for up to 5 hours or cold for up to 24 hours. Tip: Both the mug and the lid are dishwasher-safe.

52625 RETUMBLER-DUOSHOT Thermo espresso cup

This REFLECTS® original design comprises two premium black espresso cups made from recycled stainless steel. Their elegantly contoured shape and the black powder coating perfectly complement the design of our RETUMBLER-Coleosso thermo cup – positioning the RETUMBLER-Duoshot as an innovative addition to our COLESSO range. Each double-walled 80ml coffee mugs can comfortably hold two espressos. The dual-layer construction insulates hands from the heat, ensuring a delightful drinking experience. These handy espresso cups are perfect for daily use and on-the-go moments. A practical note: these thermo cups can be effortlessly and thoroughly cleaned in the dishwasher.

52655 RETUMBLER-NIZZA II 600 CERAMIC

Thermo Drinking Bottle

The myNizza family is growing: This in-house developed 600 ml thermo bottle is perfect for home, office, or on the go. Customize your bottle with a silicone ring and/or a silicone sleeve!

Thanks to the double-walled copper vacuum insulation, your drinks will stay warm for up to 21 hours or cold for up to 48 hours. Even carbonated beverages are safely stored in this leak-proof bottle. A special feature is the ceramic inner coating, which guarantees the pure taste of your beverages and is very easy to clean.

Made from recycled stainless steel and recycled PP plastic, the RETUMBLER-Nizza II is available in three finishes: black powder-coated, white powder-coated, and shiny silver with anti-fingerprint coating. All versions offer a pleasant feel and are protected against scratches and fingerprints.

Customize the thermo bottle with a silicone ring and/or a silicone sleeve, both available in 17 colours! You can also order the bottle without additional customization – it will come with a black silicone ring without a loop. All components of this item are dishwasher safe.

Your logo can be applied to the thermo bottle using laser engraving, pad printing, or UV printing. The product is rounded off with a 1C gift box.

52603 RETUMBLER-ORTADO 500

Thermo Drinking Bottle

The RETUMBLER-ORTADO-500 is a premium thermo bottle crafted from recycled stainless steel and recycled polypropylene plastic. It captivates with its aesthetic design, tactile pleasure, and outstanding quality. Owing to its double-walled vacuum insulation, this drinking bottle offers superb insulation properties: beverages maintain their warmth for up to 7 hours and remain cold for up to 36 hours.

The delicate powder coating gives the bottle an exceptionally pleasing touch. A cork lid, complemented with a practical handle, provides a harmonious appearance. The handle ensures the drinking bottle can be comfortably carried or attached to a bag – making it perfect for on-the-go. The silicone seal and twist cap ensure the thermo bottle is securely sealed, offering leak-proof protection. This makes the bottle suitable for carbonated drinks. The item can be cleaned in the dishwasher. Please note: The cork lid is not dishwasher-safe!

myTOULON GLASS: the concept on stock

52657 RETUMBLER-myTOULON GLASS

Drinking bottle

RETUMBLER-myTOULON GLASS is an evolution of the popular RETUMBLER-myTou-lon drinking bottle – now crafted from new materials. This 650 ml bottle is made from borosilicate glass, recycled stainless steel, and recycled polypropylene plastic. A standout feature of the high-quality, heat-resistant borosilicate glass is its hand-crafted, mouth-blown craftsmanship. With its matte, translucent finish (resembling frosted glass), the bottle is truly a sight to behold (available for colour models only). This leak-proof drinking bottle is suitable for both hot and cold beverages. The configurable myTou-lon Glass bottle can be paired with a silicone ring and sleeve, with a choice of 17 different silicone colours.

Care tips: The clear bottle can safely be washed in a dishwasher, the painted models should be hand-washed.

Glass Bottle

Our drinking bottle (700 ml) is made of high-quality borosilicate glass and is still extremely light. Glass is particularly suitable for drinks, because glass is odourless and tasteless and does not interact with other substances. The lid is made of beautiful stainless steel on which an engraved logo comes out particularly well. The soft protective case has a practical loop, so you can easily take the bottle anywhere. The bottle is not suitable for carbonated drinks.

NEW

52686 RETUMBLER-myTOULON II 820

Drinking bottle

The myToulon family is growing: Meet the configurable drinking bottle RETUMBLER-Toulon II 820! With its generous 820 ml capacity, this bottle is your perfect companion for travel, picnics, or the gym. Available in four attractive colours, the powder-coated bottle offers an elegant look and pleasant feel. You can customize the bottle with a silicone ring or silicone sleeve, both available in 17 colours. Alternatively, you can choose to order the bottle without additional elements – in this case, you will receive the drinking bottle with a matching-coloured silicone ring. This product is made from recycled stainless steel and recycled PP plastic. The BPA-free lid provides reliable leak protection. All parts of the item are dishwasher safe. The bottle is delivered in a brown paper bag, with an optional 1C gift box available.

Showcase your brand in style! The RETUMBLER-Toulon II 820 can be customized with laser engraving, pad printing, or UV printing.

Conveniently connected

The Convertics cable collection

Discover the Convertics product family—an impressive selection of cable sets that combine innovative technology with sustainable materials. The products in the Convertics range are more than just accessories; they represent advanced, environmentally friendly developments and offer you seamless connectivity to your digital worlds.

Each model in this special collection is equipped with a USB-C connector, which represents the current and future standard for fast data transfers and efficient charging. With a capacity of up to 60 watts, our cable sets offer an impressive fast charging function that is compatible with the latest smartphones, tablets, and even notebooks.

The Convertics family is characterized by a clear design language and recognizable design. Our products are made from recycled materials that both conserve the environment and meet our responsibility for future generations. The high-quality finishing options provide an optimal platform for your advertising messages, making each product an ambassador for your brand.

Particularly noteworthy are the REEVES-myConvertics and REEVES-Convertics Bamboo models, which have been awarded the prestigious Red Dot Award 2024 for their outstanding product design. With the Convertics series, you not only make a statement for sustainability and technology but also for aesthetic design that convinces in every respect.

Welcome to the future of mobile connectivity—designed today for tomorrow's needs.

reddot winner 2024

The round case can easily be opened by sliding it open from the side. Your advertising message always remains visible. A magnetic closure ensures that nothing falls out, even when the case is shaken.

Our 6-in-1 cable set REEVES-myConvertics leaves no one hanging. Thanks to a sturdy carabiner hook, you can easily take the cable and adapter with you wherever you go – whether to the beach or to the office. The hook is colour-coordinated with the case: The black box comes with a black carabiner, the white box with a silver hook.

MICRO USB/
8-PIN FOR APPLE®

52600 REEVES-MIXCO III

6-in-1 Charging Cable

- ✓ USB-C Connector
- ✓ 8-Pin for Apple
- ✓ Removable rings
- ✓ With magnetic closure
- ✓ Micro USB

black 52600-BK

white 52600-WE

The 6-in-1 charging cable REEVES®-MIXCO III is an ideal companion for travelling, which is available in black or white. It combines several connections, allowing high flexibility in charging and data transfer. On one side of the cable, you will find a USB-A and a USB-C port; on the other side a USB-C port, a micro USB port and an Apple® 8-pin adapter. The two sides can be easily connected with the help of the integrated magnetic clasp. The length of the flexible cable is 14 cm, which is very practical when charging with a power bank while travelling. The multi-cable comes with a key ring, from which it can be easily detached and thus always ready to use.

Apple® is a trademark of Apple Inc. Registered in the US and other countries.

52671 REEVES-QUIMO 15 Watt 3-in-1 Magnetic wireless charger

Experience efficient and convenient charging with the REEVES-Quimo – a 3-in-1 wireless charger that's perfect for the office, home, or on the go. Benefit from an output power of up to 15 watts for compatible devices or 3 watts for Apple® Watch. The magnetic charging surface securely holds devices that support MagSafe® technology. A special feature: fold out the ring on the back, and the charger transforms into a practical phone stand – ideal for video calls or streaming! Made from silver anodised, recycled aluminium, the REEVES-Quimo impresses with its timeless design and lightweight build. The front of the charger is made from durable, recycled ABS plastic. For safe use, the charger includes built-in protection against over-voltage, short-circuit, and overheating. The wireless charger is delivered in an attractive 1C gift box, along with a USB-C to USB-C cable and a USB-A adapter.

Customize the REEVES-Quimo with your logo! The charger can be impressively branded through laser engraving or pad printing.

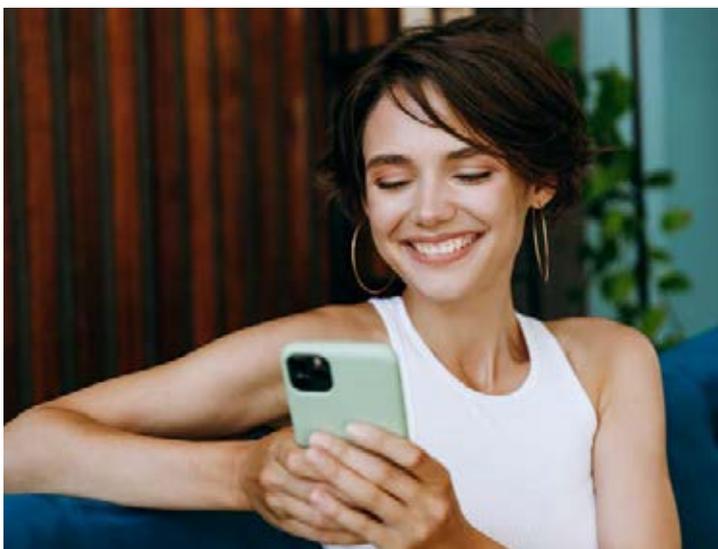

Apple® and MagSafe® are registered trademarks of Apple Inc., registered in the US and other countries.

52602 REEVES-GINGCAST 15 Watt Wireless Charger

- ✓ Output (wireless): 15 watt
- ✓ Coils: 1
- ✓ Including USB-A to USB-C Cable
- ✓ USB-C Connector
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection

Material acrylic **Measurements** 108 x 92 x 16 mm
Weight 166 g **Packaging** gift box

REEVES-GINGCAST is a high quality wireless charger with a transparent acrylic case, providing a charging surface with an output power of up to 15 watts. This ensures fast and convenient charging. The visible copper coil is a visual highlight, giving the wireless charger a cool industrial techno look. The four anti-slip pads on the bottom provide a secure stand - even on glossy surfaces. REEVES-GINGCAST is chargeable via a USB-C port.

Overheating, overvoltage and short-circuit protections are integrated in the REEVES-GINGCAST. A high-quality gift box and an 1-meter USB-C to USB-C cable (with a USB-A adapter) are included. Customer logo and slogans can be applied on the wireless charger via laser engraving CO2, UV printing or pad printing. Our tip: A full-surface printing on the backside of the charger makes it an eye-catcher.

Magnetic wireless charger

- ✓ Output (wireless): 15 watt
- ✓ Coils: 1
- ✓ Magnetic attachment
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection
- ✓ Including usb cable

Material aluminium, plastic
Measurements 56 x 56 x 5,7 mm **Weight** 42 g
Packaging gift box

This wireless charger offers rapid and easy charging with an output power of up to 15 watts. The black, glossy aluminium casing, combined with the visible copper charging coil on the front, provides a sleek industrial look. A magnetic ring around the charging area ensures secure attachment with compatible devices.

The compact wireless charger comes with an integrated charging cable that features a 2-in-1 adapter plug - USB-C and USB-A connectors. Customer logos and slogans can be applied either via pad printing on the front or through pad printing or laser engraving on the back of the charger. The item is delivered in a premium cardboard box. This product incorporates all essential protective circuits.

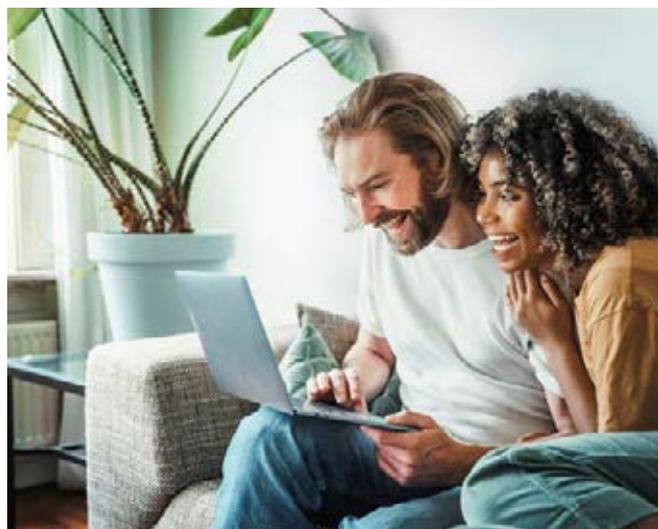

52590 REEVES-GOLNEY
3-in-1 Fast Wireless Charger

- ✓ Output (wireless): 15 watt
- ✓ Coils: 3
- ✓ Output (wireless): 3 watt
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection
- ✓ Including USB-A to USB-C Cable

This charging station is capable of charging up to three inductive devices simultaneously. Two charging zones are available, each with up to 15 watts of output power for mobile phones, wireless headphones or other end devices. One of them is equipped with a magnetic ring that provides a more secure hold for the end device. Between the two charging zones is another charging surface with 2.5 watts, which is specially designed for Apple® Watch. The high output power guarantees rapid charging. The super-thin case is made of aluminium and tempered glass. The black and glossy surface as well as the visible charging coils made of copper give the charger a technical look. The customers can have their logos or slogans applied either on or under the glass surface, using pad printing or laser engraving. Four anti-slip pads are attached to the underside, so that the multicharger stands securely on smooth surfaces. All standard protective circuits are integrated in this product. An 1m USB-A to USB-C cable is included. The multicharger comes in a gift box.

52609 REEVES-PORTANOVA 15 Watt

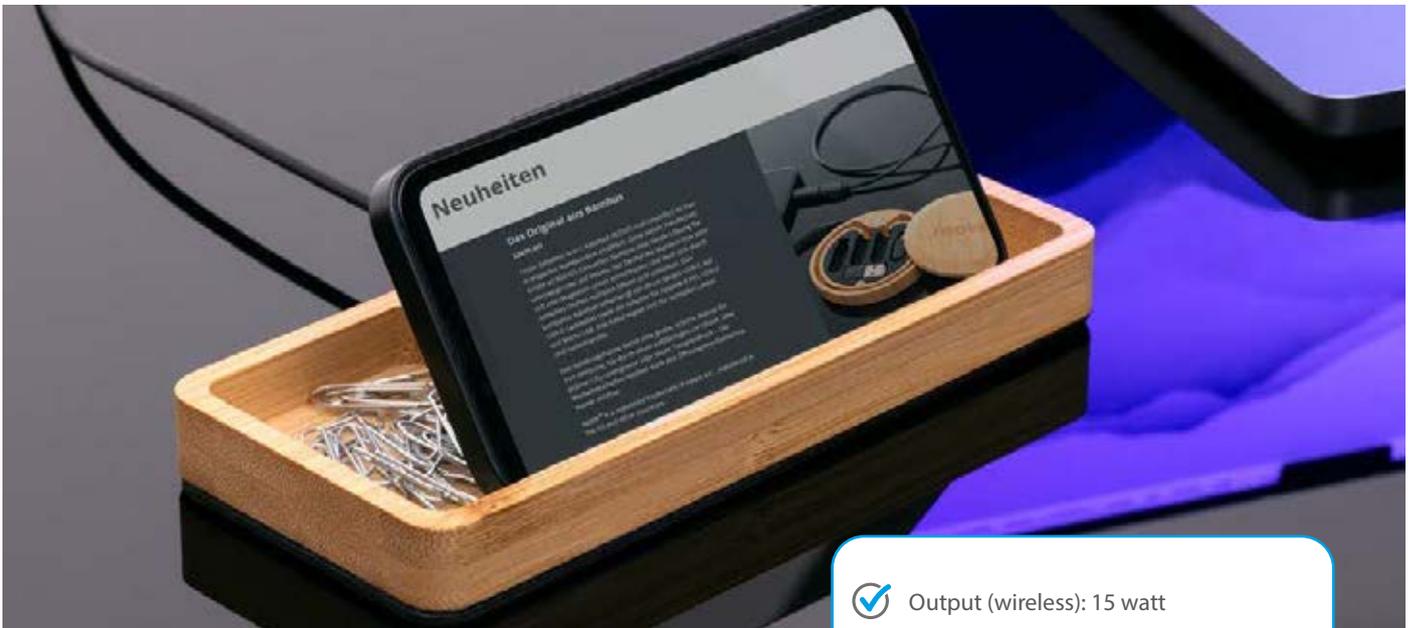

3-in-1 Fast Wireless Charger

Compact, lightweight, and powerful – that's the REEVES-Portanova Wireless Charger. This foldable charger provides three charging surfaces, offering outputs of up to 15 watts, 3 watts, and 5 watts. Compatible devices such as smartphones, Apple® Watches, Apple® AirPods, and more can be swiftly and safely charged on this multicharger. The output power of each charging surface can easily be identified by the number printed on the right corner. When connected to a power source, a red LED light illuminates; during charging, a blue LED light shines. The soft silicone material between charging pads allows the charger to be effortlessly folded for space-saving storage. A magnet ensures it remains securely folded. A USB-C to USB-A charging cable is included in the package.

The concept on stock

53008 REEVES-myFLASH 300

Rechargeable Torch

The rechargeable REEVES-myFlash 300 torch is a more compact version of the powerful REEVES-myFlash 700. Crafted from recycled aluminium, this torch is a REFLECTS® own design for the REEVES® brand. It sports a dark grey anodised finish and can be paired with a grip sleeve. The silicone components are available in a wide range of colours from stock in Cologne. For the first time, a bamboo sleeve option is available. The torch can be ordered without a grip sleeve, but it comes with a wrist strap.

The 300-lumen strong, white LED beam is adjustable, zoomable, and illuminates up to a maximum distance of 132.7 meters. The rubberized button cycles through its 5 distinct lighting functions: high (battery life of 55min), mid (battery life of 1:15h), low (battery life of 2:45h), flashing and emergency modes. The maximum brightness has been determined at 4400 candela.

The dark grey torch can be recharged using a USB-C port located at the top of the lamp. This port is discreetly concealed beneath the beam-adjustment feature, ensuring an overall IPX4 splash-resistant rating. A USB-A to USB-C charging cable is provided in the package.

53000 REEVES-myFLASH 700

Rechargeable Torch

This powerful and rechargeable aluminium torch is an in-house design developed exclusively for the REEVES brand from REFLECTS. The torch is available in silver or black anodised finish, has a black carrying strap and can be combined with a silicone grip sleeve and/or a silicone ring. The silicone components are available in many different colours from Cologne. Of course it is also available without any silicone components.

The torch includes a 700 lumen original Osram P8 LED light (colour white). The light cone is zoomable and has a maximum light range of 376 metres. Five light modes are integrated: high (battery life of 00:45 h), mid (battery life of 01:15 h), low (battery life of 02:30 h), flashing mode and SOS. The maximum brightness is determined to be 35,400 candela. The high-quality torch can be recharged via a micro-USB connection which is located in the head of the torch. The connection is hidden under the light cone zoom of the torch head and the torch thus IPX4 splash-proof overall. A USB-A to micro USB charging cable is included.

52673 REEVES-PORTO LIGHT

Key ring with rechargeable LED flashlight

- ✓ Lumens: 80
- ✓ Recycled aluminum
- ✓ Rechargeable
- ✓ USB-C Connector
- ✓ Split Ring: Ø 35 mm
- ✓ Integrated overvoltage and short circuit protection

Discover the REEVES-Porto Light - the rechargeable LED flashlight keychain! When you need light on the go, this compact flashlight is always at hand.

This exclusive REFLECTS® design, made from recycled black anodized aluminum, impresses with its timeless look. The 80-lumen flashlight can be adjusted to 50% or 100% light intensity with a simple press of a button. You can zoom the beam by sliding the front part of the lamp forward or backward. The 120 mAh battery charges in 2.5 hours using the included USB-C cable, with a red LED indicator showing the charging status. At full brightness, the light lasts for 30 minutes, while at 50% brightness, it lasts for 75 minutes. The USB-C port is hidden under a silicone cover, making the item IPX4 splash-proof. For safe use, the REEVES-Porto Light is equipped with over-voltage, short-circuit, and overheating protection.

53006 REEVES-CLERDON

Head Lamp

REEVES-CLERDON is a wonderful versatile headlamp with 280 lumens. It features a particularly bright light and a variety of functions. There are two light colours available: white and red. The white light can be dimmed to 100%, 50% and flashing, while the red light can be set to continuous and flashing light. The lamp has a removable light diffuser. The running time of the lamp is up to 16 hours. The soft, elastic and adjustable headband ensures comfortable wearing.

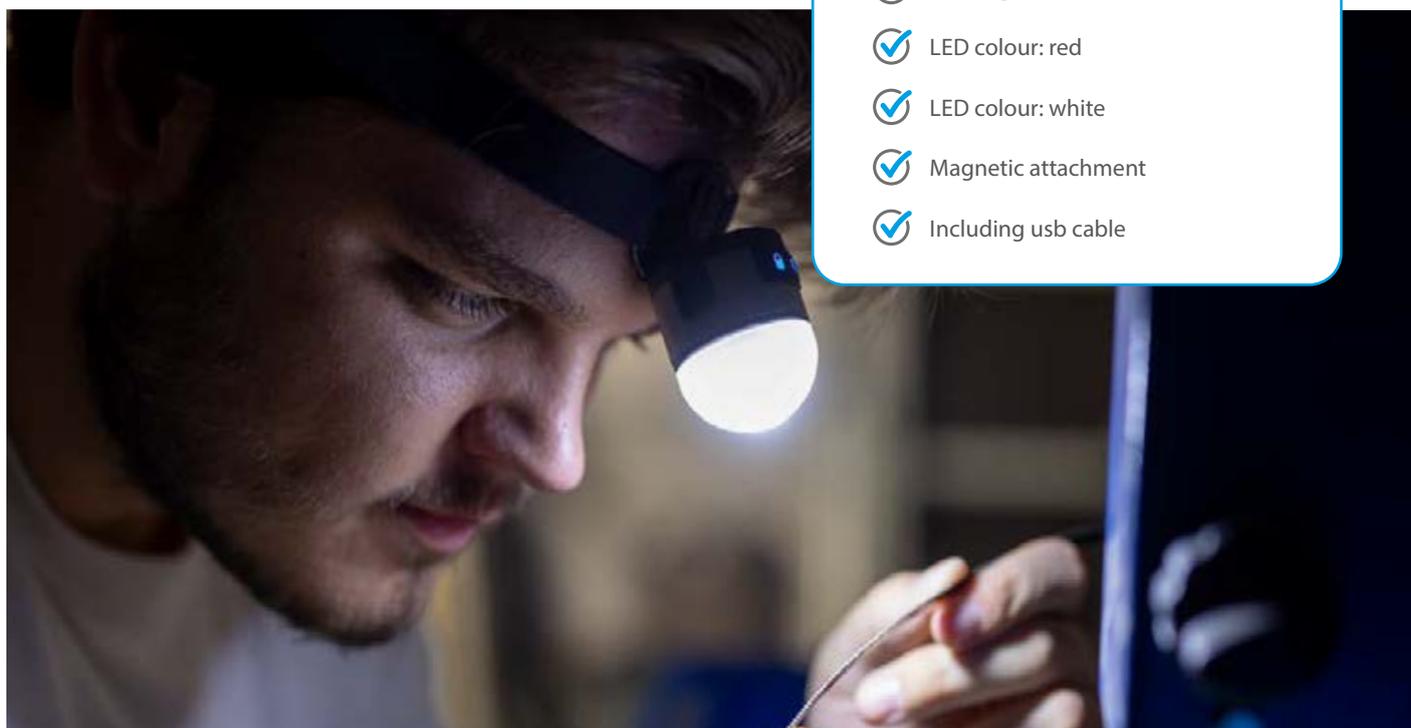

By twisting it gently, the lamp can be separated from the strap and then used separately. It can be held on magnetic surfaces with a built-in magnet or hung on the carabiner. With an integrated clip on the plastic flap, the lamp can also be attached to other materials, e.g. clothing. Thanks to these versatile applications and the different modes, the headlamp functions as a camping light, spotlight, floodlight, emergency beacon and reading lamp - a reliable light source for various occasions and activities. The headlamp can be charged via a USB-C connection. A USB-C charging cable is included in the delivery.

Customers' logos and slogans can be engraved on the body of the lamp by means of a noble laser engraving. All standard protective circuits are integrated.

53009 REEVES-SAPPORO

Rechargeable Multifunctional Headlamp

This rechargeable head and pocket lamp with 450 lumens is a reliable light source for various occasions. Enjoy its versatile applications, as REEVES-Sapporo can be used not only as a headlamp but also as a pocket lamp. As a headlamp, it is perfect for nighttime jogging, tasks in the basement and many other activities. Particularly practical is the ability to adjust the light angle by rotation. This way, you can direct the light, for example, while jogging and illuminate the path. By sliding, the lamp can be detached from the headband and used as a pocket lamp. The magnetic clip allows easy storage and carrying of the lamp.

The head and pocket lamp offers a variety of practical light modes and colors. There is an LED mode and a COB mode to choose from. In the LED mode, the brightness can be dimmed to 100% or 50%, while in the COB mode, options such as High, Medium, and Low can be selected. A zoom function is available in the LED mode. In addition, the COB light has a mode for colored light. The lights have a runtime of up to 2 hours. This useful all-rounder can be decorated via laser engraving or pad printing. All common protective circuits are integrated into the item.

52610 REEVES-CLIMASPARK Weather station

- ✓ Thermometer
- ✓ Magnetic attachment
- ✓ Stand
- ✓ Wall holder
- ✓ Battery: included

This battery-operated weather station serves both as an indoor thermometer and hygrometer. The thermometer measures temperatures ranging from 0°C to 50°C, while the hygrometer gauges humidity levels from 20-95% RH.

On the easily readable display, the recorded temperature and humidity are complemented with a smiley face. Should the humidity fall below 40% (too dry) or rise above 70% (too moist), the display will show a displeased expression, otherwise a smiling face appears. The temperature reading can be toggled between Fahrenheit and Celsius by pressing the black button on the backside.

The product offers three mounting options: thanks to its fold-out stand, the mini weather station can be placed upright. An incorporated hole on the back allows for convenient wall mounting. With the built-in magnet, the room thermometer can also be affixed to metal surfaces.

Material plastic **Measurements** 58 x 45 x 18 mm
Weight 36 g **Packaging** gift box

- ✓ 4 speed levels
- ✓ LED colour: white

- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection
- ✓ USB-C Connector

52630 REEVES-DESKSTREAM Rechargeable Fan with Light

Hot summer days can take a toll on the body. Find relief with our handy REEVES-DESKSTREAM table fan that provides a refreshing breeze. This white plastic table fan offers three intensity levels and an interval setting. The fan head can be smoothly adjusted vertically. This fan stands out due to its flexibility and ease of use since it doesn't need to be constantly plugged into a power source. Standing at 22 cm tall, the table fan can be recharged via a USB-C port. A suitable USB Type-C to USB Type-A cable is included in the package. On its lowest intensity setting, the fan can run for approximately 4 hours.

The round base is equipped with rubberized non-slip feet, ensuring a stable stance. Additionally, the sturdy base incorporates a two-stage dimmable LED light. The functional buttons for the fan and light are clearly positioned on the base. The device also features an LED battery level indicator (blue) and serves as a control light when charging (red).

Material plastic **Measurements** 140 x 120 x 220 mm
Weight 289 g **Packaging** gift box

52612 REEVES-ACUREL

Massage Gun

Relaxation at home and on the go. The REEVES-Acurel massage gun delivers an exceptional massage experience. With its 4 interchangeable massage heads and 4 intensity levels, it meets individual needs perfectly. The device is operated via a single-button control, making it easy to adjust the intensity. After 15 minutes, the massage gun automatically turns off. This product features built-in over-voltage, short-circuit, and overheat protection.

The massager can be recharged using the provided USB-A to USB-C cable. During the charging process, a red light illuminates, switching to green once fully charged. A full charge allows for up to 5 hours of operation. The massage gun cannot be used while charging. The massage gun, interchangeable heads, and charging cable are housed in a sturdy black soft case. Both the device and the case can be customized.

Material plastic **Measurements** 135 x 80 x 40 mm **Weight** 433 g **Packaging** gift box

52679 RE98-myNIZZA 600 ml
Thermo Lunchpot

NEW

Enjoy your meals or snacks on the go with the RE98-Nizza Lunchpot! Whether at school, work, picnics, or on hikes – the 600 ml Thermo-Lunchpot is always by your side. A special highlight: the Lunchpot is customizable – choose your colour combination. Available in classic black, white, or silver, this exclusive in-house design impresses with its modern aesthetics and excellent quality. Thanks to its double-walled copper vacuum insulation, your food stays warm for up to 7 hours or cold for up to 24 hours. Whether soup, pasta, casseroles, or yogurt, you can enjoy your meals at the perfect temperature anytime. The wide opening makes filling the Thermo-Lunchpot effortless, and its leak-proof construction ensures your food stays securely sealed.

Made from recycled stainless steel, the Thermo-Lunchpot features a high-quality powder coating in black or white, or an anti-fingerprint coating in the silver model. This gives the product a sleek appearance and a pleasant feel. The silicone vent on the lid, available in 17 colours, allows you to customize the Lunchpot to your design. All parts of the product are dishwasher safe.

52581 RE98-LAUDAT
Lunch Kit

Whether for work, school or leisure - lunch boxes are everyday items for many people and have a long service life. Place your advertising message in the everyday life of your customers and make them happy with our all-rounder RE98-Laudat. The lunch box made of BPA-free plastic contains two black 500 ml containers that are separated by a divider. Inside the separator is a black plastic cutlery set consisting of a knife, fork and spoon. To ensure that the cutlery is safely stowed away, the individual pieces of cutlery are clamped in matching holders. A food separator for one of the two boxes is also included. The lid of the lunch box is made of bamboo and plastic. A special feature: plastic and bamboo can be separated, so all plastic components can easily be put in the dishwasher. The bamboo board can also be used as a cutting board. For additional stability, the entire box is enclosed with a black rubber band.

52692 RE98-CUTLA Cutlery set

Whether for a picnic, trekking tour, the office, or a construction site – the RE98-Cutla cutlery set is ideal for on-the-go use. The cutlery is made from high-quality recycled stainless steel and comes packaged in a hygienically sealable, modern box made from recycled plastic.

The knife, fork and spoon are cleverly stacked on top of each other and safely transported in the closable box. The design of the cutlery pieces makes intuitive stacking easy. Made from highly polished, durable stainless steel, the set stands out for its longevity. The serrated knife offers the same sharpness as traditional household knives, while the four-pronged fork is perfect for picking up food. The size of the cutlery is between standard main course and dessert cutlery, making the set suitable for any meal or snack.

After use, the cutlery can be stored in the handy box, which is available in black, dark blue, red, or white. The transparent polycarbonate cap can be easily opened and removed with a light press on the back. Additionally, the box functions as a knife rest, keeping the cutlery hygienically protected from surface contact. All parts are dishwasher safe.

52636 RE98-SPICER Pepper or Salt Mill

The REFLECTS® proprietary design, RE98-SPICER, impresses with its attractive appearance and high-quality craftsmanship. Made from noble acacia wood and stainless steel, this salt or pepper mill is equipped with a ceramic grinding mechanism that guarantees excellent grinding quality. The grinding degree can be selected by turning the stainless steel knob. RE98-SPICER provides a generous area for advertising. This can be done either through pad printing or CO2 laser engraving on the case or through laser engraving on the stainless steel plate. This item is delivered in a high-quality gift box.

Notes: Wood is a naturally occurring raw material. Varying wood grain patterns and colour tones are inherent to the nature of the material.

52596 RE98-MANISA BBQ tongs

- ✓ Length: 35 cm
- ✓ Bamboo handle
- ✓ Safety lock

The stainless steel barbecue tongs RE98-MANISA are a useful tool for barbecue masters. The bamboo handle gives the tongs a pleasant natural look and forms a trendy colour combination with the black lacquered stainless steel. In addition, the natural material offers a comfortable feel and enables safe handling on the heated barbecue. The ends of the barbecue tongs are slightly curved, so that the food can be gripped perfectly. With a length of 40 cm, the tool fits easily in the kitchen drawer and can also protect the hand from heat. The tongs are equipped with a secure locking mechanism. To unlock the tongs, you only need to press the eyelet on the hinged end of the tongs lightly. To close them, simply pull the eyelet. This allows the tool to be stored in a space-saving way.

Material Stainless steel, bamboo **Measurements** 390 x 60 x 23,04 mm **Weight** 189 g **Packaging** gift box

52487 RE98-ARVADA BBQ tongs

- ✓ Bamboo handle
- ✓ Safety lock
- ✓ Length: 50cm

These grill tongs are indispensable helpers at your barbecue. Due to their length of 51 cm, the grill master maintains an ideal distance to the hot grill and can safely turn and serve meat or vegetables. The slightly bent ends of the tongs ensure that the food to be grilled can be gripped safely. The BBQ pliers have a practical locking device and an eyelet for hanging up. The handle made of beautiful bamboo wood can be impressively refined with a laser engraving.

Material Stainless steel, bamboo **Measurements** 500 x 45 x 48 mm **Weight** 367 g **Packaging** gift box

52583 RE98-SAPHIRA BBQ tongs

- ✓ Turner
- ✓ Length: 35 cm
- ✓ Safety lock
- ✓ Rubberized grip zone

The classic tool of every sophisticated barbecue master are his barbecue tongs. Our pair of stainless steel tongs are indispensable helpers around each barbecue. With a length of 39 cm, they guarantee safe handling and allow meat and vegetables to be turned and served in the best possible way. In order to allow the grilled food to be gripped perfectly, the ends of the barbecue tongs are slightly curved to a turner. The rubberised grip area gives a good and firm hold. In addition, the BBQ tongs can be locked or opened by pulling the eyelet on the head. Due to their length, these BBQ tongs can be conveniently stored in any kitchen drawer or can be nicely hung up on the eyelet.

52619 RE98-SILVERSERVE

Waiter's knife

- ✓ Two-level lever system
- ✓ Bottle opener
- ✓ Foil cutter

The RE98-Silverserve waiter's knife is exceptionally practical and comfortable to use. Crafted from aluminium, this wine bottle opener sits perfectly in the hand and is pleasantly light weight. It offers three tools: a corkscrew, a bottle opener, and a foil cutter with a sturdy saw edge.

A standout feature of this product is its double lift mechanism. Due to this design, even long and delicate corks can be removed with ease. All tools fold away securely for compact storage.

For promotional messages, we offer a sophisticated laser engraving on the handle, ensuring logos and slogans remain prominently visible. The item comes in a premium slide-out box packaging.

52689 RE98-DAILY HELPER TOOL **NEW**

Multifunction tool

- ✓ Carabiner
- ✓ Screwdriver
- ✓ Wrench

The compact RE98 Daily Helper Tool combines multiple practical functions in a high-quality design. By rotating the clip carabiner, the tool is deployed. Thanks to the precision ball guide, it remains stable when fully extended. The tool features both a Phillips and flathead screwdriver, a spanner for sizes 5, 6, 8, 10, 12, and 14, as well as a wingnut screwdriver. After use, it can be safely stored in its matte black tool cover, while the clip carabiner allows for easy attachment to bags, belt loops or keyrings.

Crafted from durable SS420 stainless steel and reinforced with a black aluminium disc, the tool stands out with its premium craftsmanship and feel. The matte black tool cover also offers a generous branding area, which can be customised with either pad printing or laser engraving. The RE98 Daily Helper Tool is delivered in 1C gift packaging.

Parcel opener

- ✓ Carabiner
- ✓ Package opener
- ✓ Ruler

Whether for professional or personal use, when opening multiple packages containing sensitive items, a utility knife isn't always the best option. The deep-cutting blade can damage the contents inside. Our handy helper offers the solution!

The RE98-Daily Helper Parcel is a multifunctional tool featuring a parcel opener with a reverse blade, a ruler, and a clip carabiner. By rotating the carabiner, the tool can be deployed, and thanks to its ball guide, it remains stable when in use. After use, the parcel opener can be safely stored to prevent any injuries.

The reverse blade protects the contents of the package, as only the blunt tip comes into contact with it. Made from durable SS420 stainless steel and reinforced with a red, anodised aluminium disc, the tool provides stability and top-quality craftsmanship. The matte black cover is ideal for customisation with pad printing or laser engraving. The product is delivered in premium 1C gift packaging.

✔ Load capacity: 10 kg

A useful little tool, not only suitable for handbags and backpacks, but also for jackets and coats. The foldable bag hook with a beautiful, shiny black gunmetal plating can be customised on its top with an eye-catching, full-surface doming or a luxurious laser engraving.

Material metal **Measurements** 45 x 45 x 10 mm
Weight 58 g **Packaging** gift box

51998 RE98-PORI

Bag hanger

✔ Load capacity: 5 kg

✔ Engraving plate

The silver-coloured bag hook made of metal has a circular, white contrasting customisation area on its front, which is perfectly suited for an impressive doming. The item additionally is delivered with an aluminium plate that can be used for laser engraving.

Material metal **Measurements** 45 x 45 x 10 mm
Weight 53,8 g **Packaging** gift box

52302 RE98-BETEROU

Dice cup with 5 dice

- ✓ 5 dice
- ✓ With hinged lid

There are the simple things that bring joy! The dice cup with lockable cube tray in the base is ideal for fun on the road and at home. Laser engraving with your logo looks particular nice.

Material PU leather imitation, plastic
Measurements 104 x 78,5 x 75 mm **Weight** 129 g
Packaging gift box

52303 RE98-CALABASAS

Playing cards set with box

- ✓ 54 cards from 2 to ace + 2 jokers
- ✓ With magnetic closure

Poker fans beware: After the poker round you stow your playing cards in this attractive box. A set of playing cards is included (54 cards from 2 to As & 2 Jokers). Particularly attractive is the box with your logo as a laser engraving.

Material PU leather imitation, microfibre, paper
Measurements 107,5 x 81 x 35 mm **Weight** 197,5 g
Packaging gift box

10180 RE98-KEMER

Key Ring

✔ Split Ring: Ø 35 mm

Sporty elegance - a key ring with style. The combination of metal- and nylon strap turns this key ring into a sporty and elegant item. With a laser engraving, the key ring becomes a perfect brand ambassador.

10252 RE98-ALGEMESI Key Ring

✓ Split Ring: Ø 35 mm

Just spread the split ring with the inner part and the key has enough space to be attached easily.

Material metal **Measurements** 71 x 33 x 12 mm
Weight 20,4 g **Packaging** gift box

10268 RE98-SHAWNEE Key Ring

✓ Split Ring: Ø 33 mm

This polished keychain comes with a handy feature that makes opening the key ring easier. The opening aid is situated in the oval area of the keychain, where the key ring is attached. To open it, just insert the small, pointed tool between the carabiner hooks. This makes attaching keys effortless and saves your nails. Additionally, with a laser engraving, the keychain becomes a sophisticated and high-quality promotional item.

Material metal **Measurements** 90 x 33 x 12 mm
Weight 24 g **Packaging** gift box

10268 RE98-SHAWNEE Key Ring

✓ Split Ring: Ø 35 mm

My heart belongs to you - said quite simply! Noble design key ring made of shiny metal for Valentine's Days and wedding vows. Exclusively at REFLECTS!

With a laser engraving of your lettering or logo, the key ring turns into the bearer of your heartfelt message.

Material metal **Measurements** 72 x 39 x 7 mm
Weight 36,6 g **Packaging** gift box

10155-S

10155-M

10155 RE98-PERRIS RECTANGULAR Key Ring

✓ Split Ring: Ø 35 mm

Discover the RE98-PERRIS RECTANGULAR key ring – an elegant combination of black faux leather and sturdy metal. This rectangular keyring impresses with its fine stitching and a matte silver engraving plate. The durable split ring with a diameter of 35 mm completes the sophisticated design. A stylish and affordable alternative to classic leather, ideal for those who value quality and aesthetics.

10360 RE98-DELIVERY

Key Ring

- ✓ Incl. caddychip
- ✓ Split Ring: Ø 35 mm

The beautiful metal keyring is made in a silver matt truck design. It has a solid split ring and a shiny caddy chip on the back. The chip can be easily pushed in and out when in use. The caddy chip can be customised with a stylish laser engraving.

Material metal **Measurements** 35,5 x 33 x 5,5 mm
Weight 23 g **Packaging** gift box

10364 RE98-DRIVE IN

Key Ring

- ✓ Incl. caddychip
- ✓ Split Ring: Ø 35 mm

The keyring designed as an e-car is the first choice for every e-car enthusiast. The design keyring made of matt metal has a caddy chip holder with integrated caddy chip. It can be pushed out and inserted again after use. A fine laser engraving of your logo on the caddy chip makes it even more attractive.

Material metal **Measurements** 33,5 x 33 x 5,5 mm
Weight 26,1 g **Packaging** gift box

10359 RE98-PORTOLA

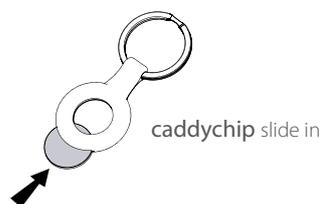

Key Ring

✓ Incl. caddychip

✓ Incl. caddychip

The black key ring with a round silicone ring is on the one hand characterised by its pleasant feel and also by its usable caddy chip. The metal caddy chip can be pushed out of the silicone ring and pushed back in at the bottom of the silicone ring after use. A sturdy, metal split ring allows to hold your keys in a tried and tested manner. The caddy chip can be customised with a noble laser engraving, which ensures your logo to be always prominently visible on your key ring.

Curved key ring made of high-class aluminium as a bottle opener. The black key ring offers a prominently positioned customisation area for a high-class laser engraving. Alternatively, the product can be customised with a 1c pad print.

Material aluminium **Measurements** 108 x 25 x 14 mm
Weight 12,6 g **Packaging** Polybag

10367 RE98-PORTO TOOL

Key ring with endless pen and screwdriver

- ✓ Endless Writing Tip
- ✓ Recycled aluminum
- ✓ Screwdriver
- ✓ Split Ring: Ø 35 mm

Discover the 3-in-1 multifunctional keychain – your indispensable mini tool for on-the-go. This handy keychain features a bit for precision work and an endless writing tip. The bit, made from hard steel with a Rockwell hardness of 55 to 60 HRC, includes both a flathead and a Phillips head attachment. These are perfect for tasks like opening battery compartments, tightening eyeglass arms or other precise jobs. The endless writing tip is ideal when you quickly need a pen. Made from recycled black anodized aluminum, the keychain is lightweight and comfortable to hold. Simply twist the body to access the bit or the writing tip.

52673 REEVES-PORTO LIGHT

Key ring with rechargeable LED flashlight

- ✓ Lumens: 80
- ✓ Recycled aluminum
- ✓ Rechargeable
- ✓ USB-C Connector
- ✓ Split Ring: Ø 35 mm
- ✓ Integrated overvoltage and short circuit

Discover the REEVES-Porto Light - the rechargeable LED flashlight keychain! When you need light on the go, this compact flashlight is always at hand.

This exclusive REFLECTS® design, made from recycled black anodized aluminum, impresses with its timeless look. The 80-lumen flashlight can be adjusted to 50% or 100% light intensity with a simple press of a button. You can zoom the beam by sliding the front part of the lamp forward or backward. The 120 mAh battery charges in 2.5 hours using the included USB-C cable, with a red LED indicator showing the charging status. At full brightness, the light lasts for 30 minutes, while at 50% brightness, it lasts for 75 minutes. The USB-C port is hidden under a silicone cover, making the item IPX4 splash-proof. For safe use, the REEVES-Porto Light is equipped with over-voltage, short-circuit, and overheating protection.

RE98-RADIATOR-KEY
 Key Ring with Radiator Key

✓ Split Ring: Ø 35 mm

The RE98-RADIATOR-KEY key ring covers two useful functions at once: A heating vent key and a reusable caddy chip are both embedded into the key ring. The design of the caddy chip holder made of solid metal is designed like a screw nut. The surface of the key ring is matt. The caddy chip (iron, nickel-plated) can simply be removed and reinserted after use. The heating vent key fits common heating vent valves.

Material metal **Measurements** 80 x 35 x 9 mm **Weight** 27 g
Packaging gift box

52011 RE98-MADISON
 Key Ring with Radiator Key

✓ Split Ring: Ø 25 mm

For cosy and warm winter moments: A practical key fob with a beautiful doming surface and radiator key for bleeding your radiators.

Material metal **Measurements** 62 x 32 x 10 mm
Weight 19,7 g **Packaging** Polybag

10365 RE98-LEVENT

Key Ring

- ✓ Split Ring: Ø 35 mm
- ✓ Incl. caddy chip
- ✓ Heater deerator
- ✓ Carabiner

Two useful functions on your key ring: a radiator key and a caddy chip! The shiny caddy chip is attached to a solid carabiner, which is complemented by an additional key ring made of matt metal. This elegantly designed pendant looks like a noble jewellery pendant and also has a technical function. For optimal use of the radiator key, simply use the caddy chip or a coin and insert it into the slot provided. Insert the coin to make it easier to turn the radiator key when venting the radiator. The chip and the extended key ring can be laser engraved.

Material metal **Measurements** 55 x 0,9 x 0,9 mm **Weight** 25,3 g
Packaging Polybag
